Reasons For Choosing Helmet.

01. Air Lumbar Design : Good Support For The Waist.

The lumbar support of the backrest is provided by an air inflatable cushion that may be individually adjusted by a pump in order to support the correct ergonomics of each user's seat.

02. Back Design : Back Height Adjustment

Helmet is designed to provide the right combination of upper and lower back support. Ratchet style back height adjustment, reduces likelihood of back pain.

03. Self-weight Mechanism

Increase or decrease to match body weight. Allows you to rock comfortably, without heavy pushing, reducing muscle fatigue.

Helmet Gaming Chair

Best gaming chairs : the seats suggest for any gamer

Helmet gaming chair is a type of chair marketed towards gamers. They differ from most office chairs in having high backrest designed to support the upper back and shoulders. They are also more customizable: the armrests, back, lumbar support and headrest can all be adjusted for comfort and efficiency. Exploring new worlds. Vibing on your favorite creator videos. Hardcore competing. Complete your setup for peak focus and comfort right here.

Features and Benefits

Headrest
High density molder foam support

Back ratchet
Height adjustment

Back tilt
Four positions lock

Air Lumbar Design
Add or subtract the air to make a suitable lumbar support with pump on right side.

Molder foam
±55°High density molder foam (including headrest, chair back, chair seat)

Armrest
